**OBJECTIVE:**

Seeking a position to that will take full advantage of my technical and management skills and abilities in the Information Technology Industry. The position should offer Professional growth, and an opportunity to manage a team working together to achieve goals set by the company.

**IT EDUCATION:**

**Education**

Royal Australian Air Force 1965 to 1971. Served at Ubon Rachathani Air Force base, Thailand monitoring and interpreting regional communications. Maintained communications with USAF and RAAF bases and aircraft. Top Secret clearance achieved.

**Qualified in:**

1. Ground to Air radio communications, including configuring and tuning frequencies, and encrypted frequencies, etc.
2. Morse code, sending and receiving at 32 wpm
3. Encryption techniques, including programming encryption machines
4. Typing 90 to 120 wpm
5. Punched tape relay systems, telephony systems, punched card computer systems

**1985 to 1988:** Hired a private tutor employed by Thai International Airways to learn Personal Computer programming methods. During this time, developed a Personal Information Manager called **BusiMerge** ©. The program was sold to many companies in Thailand.

**July 1992,** attended a 5-day seminar at the Novotel Hotel, Bangkok, on advanced Clipper database programming techniques conducted by Matt Whelan, from Australia. ([http://www.alctraining.co.nz/matt\\_whelan.php](http://www.alctraining.co.nz/matt_whelan.php))

**September 1994,** attended a 5-day course on Synthesis conducted by Betagro Computer Limited (BCL). Synthesis is an add-on product that works with MAGIC CASE 4GL programming tool. Synthesis allows the user to design a program structure using symbols. When the program design is finished, Synthesis automatically converts the design to MAGIC, ready to run immediately with no compiling.

**January 1995,** attended a four-day course on MAGIC 4GL programming conducted by BCL. Wrote a Sales Tracking program as a follow up project for BCL sales department.

**April 1995,** attended a two day advanced seminar on Synthesis, an add-on CASE tool to Magic. Learnt how to design programs in Synthesis and then export them to Magic for further development.

**May 1996,** attended a one day seminar on Magic on DEC Alpha Client and Server. Learnt how to install Client and Server architecture and set up Magic/NT under Windows NT operating system. An instructor from Magic Software Enterprises (MSE), Israel, conducted the seminar.

**June 1996**, attended a four-day seminar on Magic SQL to learn SQL running under Magic on Novell Version 3.12. An instructor from MSE, ISRAEL conducted the seminar.

### **Technical Experience**

1. DOS, Windows, Linux, and UNIX operating systems, although UNIX experience is limited. Includes setting up Windows and Linux LAN systems on the same system, configuring, and maintaining the system. Holt WorldWide office has used a Linux/Windows LAN system in-house since 2001, with a Linux Fileserver distributed to a combination of Windows and Linux workstations.
2. PageMaker Publisher for Windows, Microsoft Office Suite
3. Linux Open Office and other Linux applications, FTP and web hosting server management.
4. Any xBase or SQL database program, and able to write programs in any of these languages. Also able to use Lotus Approach for Windows, and MS Access database programs.
5. Various utilities to maintain operating systems
6. Graphics programs, including Harvard Graphics (Presentation Manager), Visio (Business Graphics), Power Point (business presentations), Adobe Photoshop, The GIMP, PaintShop Pro, Photoshop.
7. CAD/CAM/CAE programs, including AUTOCAD, and some UNIX-system programs.
8. MAGIC 4GL programming system.
9. Synthesis software design and 4GL program generation software
10. PHP/MySQL Content Management Systems design and implementation
11. Shopping cart and Payment gateway integration and activation
12. Flash graphics

### **Certifications**

Programming: Magic Software 4GL programming system, Intermediate qualification.

PHP/MySQL, Clipper Database

Database: Oracle Database Advanced design course, MySQL design and implementation

### **Project Experience**

More than 200 website design projects since 1995 for companies in Thailand and around the world. Projects include MySQL database design for Content Management Systems.

Programming projects include Accounting System for Sutlet Group

Online e-Maps for Mike Butterworth UK, and Hoteliers Management System and website, plus many more

### **Other Activities and Hobbies**

Writing technical articles

Monthly newsletters on real estate to more than 1,400 opt-in members

Monthly newsletters on IT business to more than 2,800 opt-in members

Net surfing

Writing novels and short stories
